Design Technology	<p>3D Nets to create homes – Structure</p> <ul style="list-style-type: none"> Can I identify different types of nets and state what 3D shapes they make? Can I understand how boxes are made up, designing nets that will make 3D shapes? Can I design and develop a product to meet a design brief? Can I select appropriate materials to use to make my box whilst also selecting other materials to make the product attractive in appearance? Can I evaluate my ideas against the design criteria and consider improvements to my work? Can I select and use a range of tools to aid me in cutting, sticking and creating my home? <p>Designer: Norman Foster</p> <p>All previous year groups - Structure</p>	<p>Moving Models – Mechanisms</p> <ul style="list-style-type: none"> Can I develop an understanding of simple pneumatic systems? Can I work as part of a team to design and make a model monster with at least one moving part controlled by a pneumatic system? Can I select from and consider the use of a range of materials according to their functional properties? Can I regularly collaborate with my peers and consider the views of others to improve my work? <p>Designer: James Dyson</p> <p>Year 3 - Mechanisms</p>	<p>Money containers – Textiles</p> <ul style="list-style-type: none"> Can I demonstrate sufficient understanding and skills in working with textiles to design and make a money container? Can I complete different designs and identify the different stages of making my money container? Can I evaluate existing products and test my design to help me select my final design? Can I make a money container that is functional, fit for purpose and meets their design criteria? Can I evaluate my final product and can suggest improvements for next time? <p>Designer: Paul Smith</p> <p>Year 1 and 2 - Textiles</p>

Computing 	Online safety <ul style="list-style-type: none"> To understand some of the methods used to encourage people to buy things online. To understand that technology can be designed to act like or impersonate living things. To understand that technology can be a distraction and identify when someone might need to limit the amount of time spent using technology. To understand what behaviours are appropriate in order to stay safe and be respectful online. Computer systems and networks – Collaborative learning <ul style="list-style-type: none"> To understand that software can be used collaboratively online to work as a team. To know that you can use images, text, transitions and animation in presentation slides 	Programming 1 – Further coding with Scratch <ul style="list-style-type: none"> To understand that a variable is a value that can change (depending on conditions) and know that you can create them in Scratch. To know what a conditional statement is in programming. Programming 2- Computational thinking <ul style="list-style-type: none"> To understand that pattern recognition means identifying patterns to help them work out how the code works. To understand that algorithms can be used for a number of purposes e.g. animation, games design etc. Safer Internet Day	Data Handling – Investigating weather <ul style="list-style-type: none"> To know that computers can use different forms of input to sense the world around them so that they can record and respond to data. This is called ‘sensor data’. To know that a weather machine is an automated machine that responds to sensor data. To understand that weather forecasters use specific language, expression and pre-prepared scripts to help create weather forecast films.
