

Maths and Reading information evening.

Thursday 25th September

Maths information evening.

**We want our
children to be
inquisitive, curious
learners who think
critically and outside
the box.**

Maths information evening.

**What can you
tell me about
the number 17?**

Maths information evening.

17

Children's responses.

It is one more than 16.

It is 83 away from 100.

It's a prime number.

It is not a composite number.

It can't be the perimeter of an equilateral triangle.

Maths today.

More focused on mastery (children really mastering the subject) and children having a depth of understanding. Children enjoying maths...which our children do!

Maths today.

Baseline assessment in EYFS

Optional KS1 SATS in Year 2

Statutory times tables test in Year 4

Statutory SATS in Year 6

Termly assessments across all year groups

Weekly arithmetic assessments

Daily monitoring and assessing of pupils' learning within lessons

Maths in EYFS

Learning through continuous provision.

Discreet teaching points and maths activities inspired by children's interests. Mastering Number sessions (like phonics not for maths!)

Shape, space and measure throughout the year.

Songs and interactive, online games.

Maths in EYFS

Mastering Number – Reception Overview by Week

Autumn 1	Week 1	Week 2	Week 3	Week 4	Week 5
Focus	Subitising	Counting, ordinality and cardinality	Composition	Subitising	Comparison
Set 1	Subitising within 3	Focus on counting skills	Explore how all numbers are made of 1s Focus on composition of 3 and 4	Subitise objects and sounds	Comparison of sets - 'just by looking' Use the language of comparison: <i>more than</i> and <i>fewer than</i>
Autumn 2	Week 6	Week 7	Week 8	Week 9	Week 10
Focus	Counting, ordinality and cardinality	Comparison	Composition	Composition	Counting, ordinality and cardinality
Set 2	Focus on counting skills Focus on the 'five-ness of 5' using one hand and the die pattern for 5	Comparison of sets - by matching Use the language of comparison: <i>more than</i> , <i>fewer than</i> , <i>an equal number</i>	Explore the concept of 'whole' and 'part'	Focus on the composition of 3, 4 and 5	Practise object counting skills Match numerals to quantities within 10 Verbal counting beyond 20

Maths at Guilden Sutton.

Year 2

Unit 1

Number -		Geometry -
Number & place value	Addition & subtraction	Properties of shapes

Unit 2

Number -		Measurement (length & height)
Addition & subtraction	Addition & subtraction	

Year 4

Unit 1

Number -		Geometry -
Number & place value	Addition & subtraction	Properties of shape

Unit 2

Number -		Geometry -
Multiplication & division including Number & place value	Fractions	Position & direction

Year 6

Unit 1

Number -		Geometry -
Number & place value	Addition & subtraction	Properties of shapes

Unit 2

Number -		Geometry -
Multiplication & division	Fractions	Position & direction

Maths Calculation Guide for Parents

What our lessons look like.

- Reasoning starter
 - Tell me number
- Teacher modelling and support
- Teaching Assistants used to support, challenge or extend
 - Challenges to work through
 - Extensions if needed
- Mastering Number in EYFS & KS1

Our maths journey.

Calculation

Guilden Sutton Church
of England Primary
School

A guide for Parents

[18128243 \(guildensutton.cheshire.sch.uk\)](http://18128243.guildensutton.cheshire.sch.uk)

End of EYFS expectations (Early Learning Goals).

Mathematics

Number

- Have a deep understanding of number to 10, including the composition of each number.
- Subitise (recognise quantities without counting) up to 5.
- Automatically recall (without reference to rhymes, counting or other aids) number bonds up to 5 (including subtraction facts) and some number bonds to 10, including double facts.

Numerical Patterns

- Verbally count beyond 20, recognising the pattern of the counting system.
- Compare quantities up to 10 in different contexts, recognising when one quantity is greater than, less than or the same as the other quantity.
- Explore and represent patterns within numbers up to 10, including evens and odds, double facts and how quantities can be distributed equally.

This is what the children are assessed against to get a 'good level of development'. This is NOT the EYFS curriculum and our children will be taught more and challenged appropriately ready for KS1.

End of Key Stage 1 expectations.

$$14 + 77 =$$

$$67 - 58 =$$

$$\frac{1}{4} \text{ of } 28 =$$

Kemi sends a card, a gift and a letter.

card
32 g

gift
47 g

letter
? g

Altogether the card, gift and letter weigh **100** grams.

How much does the **letter** weigh?

Here is part of a number pattern.

The numbers increase by **five** each time.

2 7 12 17 22

Write the next **even** number in the pattern.

End of Key Stage 2 expectations.

$$95\% \text{ of } 180 =$$

$$2\frac{5}{6} - \frac{3}{4} =$$

2	6	4	4	7	2
---	---	---	---	---	---

Here is a regular hexagon.

The area of the large shaded triangle is double the area of the small shaded triangle.

What **fraction** of the whole hexagon is the shaded area?

A small box contains **650** grams of cereal.

A large box contains **20% more** cereal.

One portion of cereal is **40** grams.

How many **full** portions are in a **large** box?

How you can help at home.

**Calculations
(setting the table)**

**repeating
patterns**

**counting out
loud**

times tables

**Cooking (weighing
and converting units
of measure)**

**support
independence
with homework**

money

**shape
spotting**

**telling the
time!**

**measuring
(DIY!)**

**Timetables
(bus train etc.)**

**playing board
games**
